DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 7-10, 14 and 21-27 stand rejected under 35 U.S.C. 103(a) as being unpatentable over Huang in view of Moore.

See response by board of patent appeals on request for rehearing dated 16 October 2002 (Paper No. 21).

Response to Arguments

3. The argument that modification of Huang so as to include a thicker gripping surface to read upon the pending claims would be contrary to the teaching of Huang is disagreed with. Huang clearly showed a depth relationship between the lips and a central section as well as a retaining function and it would be obvious to one skilled in the art to utilize different viscoelastic hand surfaces with different thicknesses while still maintaining the depth relationship and retaining function in order to utilize the

advantages of the different material. Moore discloses a suitable viscoelastic hand surface material with a suitable thickness which it would be obvious to modify the lips of Huang to maintain the depth relationship and retaining function.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
